AUTO GUNMAN WAS NO BLUFFER

Shot One Man, Fought a Policeman and Then Killed Himself—Had Hired Car to Take Him to Worcester.

By Telegraph to The Freeman.

Worcester, Mass., July 13.—Opening fire on members of an automobile party he had engaged to drive him from Boston to Hartford, Conn., a young man believed to be James Ryce of Rochester, N. Y., shot and wounded one man, narrowly missed a woman, engaged in a pistol duel with a policeman and then killed himself here today.

The body of Ryce and his victim, H. P Joyce, were taken to the city hospital where the latter's wounds were found to be quite serious.

The police say the bandit, who was 25, appeared at a taxi stand in Scollay Square, Boston, and asked Smith to drive him to Worcester. He said he did not object to the presence of the driver's friends.

The car proceeded without incident until it neared the Lake Quinsigmund Bridge, when Smith announced that he needed gasoline and asked Ryce for money. The police say Ryce drew a large calibre revolver, the muzzle of which he jammed into Smith's back, ordering him to drive through Worcester to Hartford.

With the gun against his back, Smith had no alternative.

Smith had nearly reached Hamilton street on Maine street when Joyce bent over towards Ryce. The bandit's pistol spat twice and blood poured from the wounds of Joyce.

At the sounds of the explosions Smith brought the machine to a stop.

In the meantime Patrolman O'Malley heard the shots. As he neared the scene he saw Ryce fire at the woman in the car, missing her. He then turned at the patrolman, who came up on the run drawing his own pistol. The men exchanged several shots without effect. Ryce then put a bullet into his own head. His identity was believed to have been established by letters found in a pocket.

BELGIANS BEAT UP GERMAN ENVOYS

By Telegraph to The Freeman

Spa, Belgium, July 13.—Attack on members of the German delegation was narrowly averted today when the Teutons carried out a strategic retreat and sped away in motor cars.

The trouble began when a Belgian officer, whose treatment in a German prison camp during the war still rankled in his mind, got into an argument with a German attached to the Teuton delegation. The Belgian finally struck the German with his fist. About a score of Germans who had come into Spa from the German's headquarters on the outskirts of Spa, interfered. A crowd gathered and was menacing the Germans with attack when the latter fled down a side street to their waiting motor cars and disappeared.

No arrests were made nor did the authorities seek the names of those involved.

Chancellor Konstantin Fehrenbach, head of the German delegation, made formal protest to the Belgian government this afternoon and was promised that an investigation would be made.

Further details of the incident revealed that Herr Stockblesser, correspondent of the official Wolff Agency of Germany, was injured in the head. The crowd of Germans that were forced to flee included Dr. Dernberg, one of the best known publicists in Germany.

If they will do so, I believe the Jewish people will once more make a great contribution to human progress."

The message was received with applause.

LAFOLLETTE OR FORD THE MAN

Likely to Head the Ticket of the New Third Party Over Which Several Conventions are Laboring in Chicago.

By Telegraph to The Freeman:

Chicago, July 13.—Senator Robert LaFollette of Wisconsin will be the third party's nominee for the presidency, probably by acclamation, if there is a third party, it was believed here today as the various political conventions got under way.

If it is not LaFollette—that is if the senator from Wisconsin will not accept the nomination—it may be Henry Ford, the automobile manufacturer. He will not refuse to run, if drafted, it was stated here today.

The automobile manufacturer has made no direct reply to the unofficial inquiries sent out from here, but Ford's secretary, speaking for Ford, has stated that while the latter was in no way to be considered a candidate for any office whatsoever, but if in spite of his efforts he was nominated, he would feel obliged to accept the nomination and run as a matter of public duty.

Senator LaFollette looms well nigh as a certainty providing the two big conventions—the committee of forty-eight and the labor party—can enter into a real combine and gather about them the other advanced parties, the Non-Partisan League, the American Constitutional Party, the Single Tax Party, the American Party of Texas, World War Veterans, Private Soldiers and Sailors' League, and so on.

KENYON FAVORS FEDERAL CONTROL

By Telegraph to The Freeman.

Washington, July 13.—Federal control, under regulations similar to those as existed during the war, was advocated today as a solution of the coal situation by Senator Kenyon of Iowa, "if the situation is not relieved during the next thirty days."

Senator Kenyon stated the situation is reaching a point where drastic action is necessary, re-allotment of cars by the interstate commerce commission havied remedied matters only in a minor way.

The appointment of a fuel administrator and more comprehensive adjustment of the car situation was urged by the Iowa senator.

The failure of the railroad wage board to act is given by many congressional leaders here as an explanation of conditions existing on the railways.

Western states are appealing to their representatives in congress and in several cases requests have been received by the president to have a national fuel administrator appointed under the president's war powers which have not been repealed.

AT THE THEATRES.

Anita Stewart at Keeney's—Charles Ray at Auditorium.

Anita Stewart in "Mind the Paint Girl" at Keeney's today in a role where she rises from sordid surroundings and wins fame as a theatrical star in a single night. This drama is well mounted in every respect and convincingly realistic, balanced and capable. It is an excellent story and cleverly adapted from the stage success. When the scene shifter drops a pot of paint upon the stage and she cries, "Mind the Paint," the idea is put into a song and the little chorus girl is allowed to sing it, springing into immediate fame. This attraction is showing tonight and tomorrow at Keeney's, also tonight the Larry Seamon comedy, "The Grocery Clerk," with the famous "shimmy cat." Coming Thursday, Cecil B. DeMille's, "Why Change Your Wife."

Charles Ray in "Crooked Straight" at the Auditorium tonight offers this popular star at his best. His first trip to the city—a thousand dollars to spend—and he never had a "big time" in his life. Was it any wonder that the home folks seemed so far and gay loose ways so temptingly near? But when his pal and his money were gone and the cops had branded him "crook"—what then? Tomorrow George Beban in "The Pawns of Fate."

The fighting is now swinging close to the old "Hindenburg line," which the Anglo-German armies established after their great drive through Poland into Russia in 1915.

Arraigned in the Dutchess county court at Poughkeepsie Monday for having escaped from Wingdale prison farm in the fall of 1917, Russell B. Thayer of Schenectady produced an honorable discharge from the United States army to show that he had enlisted three days after his escape and had served over a year with the American forces in France. He was recaptured after being mustered out of service. Judge Arnold has referred his case to the state prison department for clemency. Thayer also told the court that his conviction for grand larceny for a jewel theft in Schenectady followed a false plea of guilty which he entered to save his wife, who, he said, committed the crime.

$150,000 LOST FROM A CAR

By Telegraph to The Freeman.

Milford, Conn. July 13—Police and highway traffic officers from Norwalk to New Haven are looking for a sachel, containing negotiable securities valued at $150,000, according to George E. Hudson, a stock broker of Bloomfield, N. J. who reported the loss to the police here today. Hudson with two other men came through here in an automobile. They said that after passing Norwalk they discovered the car door open and the satchel missing. They turned and quizzed other autoists. They were told a Hudson car with a Massachusetts license, in which three men were riding, had picked up the satchel. They found this car and questioned the men who said they had hung the bag on a post by the Post Road. It could not be found and the police along the line were notified.

SUPERVISORS GET HOSPITAL BIDS

Lowest Bid of $29,000 For County Alms House Hospital Will Not Cover Entire Cost of Building.

Whether a contract for the erection of a detached brick hospital building at the Ulster county alms house at New Paltz shall be awarded for $29,755 or whether it will be better to wait in the hope of lower prices later is the problem that the board of supervisors will decide tonight. The contract price mentioned is not for a complete building. If cement floor, wood base and certain painting are eliminated, the contract will be reduced by $1,672, but the contract proposed to be awarded does not provide for plumbing, which it is said will cost in the neighborhood of $12,000, and it was stated by one of the supervisors at the special meeting of the board held at the court house Monday night that the entire cost probably would amount to $50,000.

Monday night's meeting was held for the purpose of acting on the report of the committee on county alms house, which has been advertising for bids for the hospital building. The hospital building has been recommended by the state athorities for a number of years.

The committee submitted its report at Monday night's meeting, stating that bids had been received from Peter C. Osterhoudt & Co., Inc., Elmer E. Swart and Clarence Van Aken. As the bids did not comply with the requirements as to certain possible eliminations in the form that the committee required, he committee had produced the attendance of the contractors, whose lump sum bids had not been affected. The bids, with the corrected eliminations, were as follows:

Peter C. Osterhoudt Co., Inc.,—$42,266. Eliminations: cement floor, $125; wood base, $1,097; painting, $350.

Elmer E. Swart.—$39,995. Eliminations: cement floor, $235; wood base and painting, $1,400.

Clarence Van Aken.—$29,755. Eliminations:; cement floor, $183. wood base, $1,024; painting $300.

The majority of the committee, Supervisors Sagendorf of Woodstock, Upright of Gardiner and Heaton of Plattekill, recommended that the contract be awarded to Clarence Van Aken, the contract to contain a provision that the cement floors, wood base and painting may be eliminated. The report was filed.

The majority of the committee named offered a resolution that the hospital building be erected according to the plans prepared by Architect Myron S. Teller, and appropriating $20,755 which is to be raised on the county outside the city, and transferring $9,000from the county alms house inmates' account to the county alms house hospital account. The resolution also provided for payment of 85 per cent of each month's work to the contractor on the tenth of the following month, and directed the county treasurer to borrow $20,755 on the county outside the city at a rate of interest not exceeding six per cent.

Resolution Starts Debate.

Supervisor Schermerhorn of the First Ward moved that the board defer action, which was seconded by Supervisor Bogart of Marbletown.

Supervisor Sagendorf said this looked like a foolish move after the committee had gone to the expense which had been incurred. If action was deferred it would be impossible to have the work done this year, and everyone knew how needful the hospital building was. He moved that Supervisor Schermerhorn's motion be laid on the table, but later withdrew it at the suggestion of Supervisor Fratsher, who said that if Supervisor Schermerhorn had any objection, he was probably willing to state it.

Supervisor Schermerhorn said he did not know of anyone in either Kingston or Ulster county who was doing any building now. He was aware of the necessity for a hospital, but he considered that prices were too high now. The present condition as regarded the high cost of materials could not always continue and the country was bound to get down to a lower price-basis. He had been interested in fifteen properties in Kingston at different times, but if anyone now should offer him a lot on condition that he erect a building on it, he would not accept the offer. The taxpayers would not approve this expenditure now, especially when they learned that the contract price was not for a complete building. With plumbing, for instance, costs were enormous: if a plumber simply walked through a building, he sent in a bill for $16. Other costs were in proportion.

It was impossible to tell how much expense the county must incur, said Supervisor Schermerhorn, because the state was insisting that the county erect a new tuberculosis hospital as big as the Stuyvesant Hotel, and the state had the power to enforce its order.

Supervisor Upright of Gardiner said he was interested as a taxpayer. He was not the largest taxpayer in Gardiner but he believed he stood fifth, and he felt it his duty to report favorably in the matter. The county had needed this building a long time and the committee was appointed over a year ago. He could not see any easing up of conditions for a year to come.

Supervisor J. Charles Snyder of the Twelfth Ward asked whether the contract price included plumbing and heating.

Supervisor Schermerhorn said it did not, that plumbing and heating might cost $50,000 more.

Supervisor Beaver of Esopus said that while he was a member of the committee, he was not in favor of the hospital at this time. He knew the county needed the building but the board must take the taxpayers into consideration; $29,000 would not cover the cost; The floors will cost more than the amount deducted even with all eliminations, and the board could count on the building costing at least $50,000.

Supervisor Sagendorf said this statement was probably true, but inasmuch as plans had been drawn, the county would lose about $2,000 at the start if it deferred action.

Supervisor Schermerhorn said that if the plans had been approved by the state officials, there was no reason why they could not be used later as well as at the present time.

Supervisor E. Otis Van Aken said that while the city did not bear the expense of the hospital, he would like to say as a contractor that no contractor had any idea of how soon we would see a reduction in the cost of building material; it would probably be ten years before there was any reduction, and if the county needed the building, it should be erected.

Supervisor Upright closed the debate by stating that the committee had fulfilled its duty and submitted the matter to the full board. He did not see under the circumstances how the committee could do anything except report favorably.

Motion To Table Lost.

The motion of Supervisor Schermerhorn to table the resolution offered by the majority of the committee was lost by the following vote:

Ayes—Supervisors Beaver, Bogart, Erts, Quimby, Schermerhorn, Schuler, Wilkin, Young—8.

Noes—Supervisors Avery, Charlton, Conklin, Flemming, Fratsher, Heaton, Miller, Partlan, Sagendorf, Schick, Schoonmaker, Shaw, Sinsheidt, Snyder, Upright, Van Aken, Van Etten, Van Valkenburgh, Wiedemann, Wilklow—20.

Under the rule which requires that reports and resolutions calling for expenditures shall lie over, the board was unable to vote on the resolution to build the hospital.

Allowance to County Treasurer.

Supervisor Schoonmaker offered a resolution that the county treasurer be allowed two per cent on the amount of the county's share of the state income tax, which was adopted.

Dog Bills Approved.

The following dog bills were presented and on motion of Supervisor Fratsher were allowed:

Timothy J Kelly, constable, town of Saugerties—44 dogs killed, 29 dogs killed, 139 miles traveled—total $134.50.

George Curry, constable, town of Gardiner—12 dogs killed, 4 dogs killed, 75 miles traveled—total, $55.75.

Herman DuBois, justice of the peace, town of Gardiner—Not submitted to constable for seizure of dogs—total, $2.

On motion of Supervisor Fratsher, the board adjourned until 7:30 o'clock this evening (daylight saving time).

BRYAN MAY HEAD NEW "DRY" PARTY

By Telegraph to The Freeman:

Omaha, Neb., July 13.—Organization of all the "drys" in the country into a separate political party with William Jennings Bryan at its head, was predicted here today by Elmer E. Thomas, one of the "dry" leaders in Nebraska on his return from the Democratic convention at San Francisco.

Mr. Thomas was an alternate from Nebraska at the convention and was closely associated with Mr. Bryan during the latter's pre-convention campaign in this state.

The name of Bryan will probably be presented at the annual convention of the prohibition party which meets in Lincoln, July 21. Mr. Thomas intimated, and he said an effort would be made to obtain the support of the Anti-Saloon League, which holds a meeting in Westerville, Ohio, July 22.

"My best wish is that the two parties may get together and put a 'dry' candidate in the field," he said. "I hope the dry forces of the United States will unite in the nomination of Mr. Bryan. If they do so, I believe they can win. I don't know whether Mr. Bryan would accept a nomination of this kind. If it were tendered him. My statement is made without any information that he would run as a candidate on a 'dry' platform, but I hope he may have the opportunity."

GERMAN PLANS TO DEFY THE WORLD

By Telegraph to The Freeman.

London, July 13.—The Times today warned the British public of "facts, which, it is claimed, are known to the allied statesmen at Spa," regarding German efforts to use Russia as a catspaw.

According to the Times, 40 high German officials entered Russia in February to organize the Bolshevik armies for an attack on Poland. At the same time, said the Times, Germany ostensible extended aid to the Poles.

"As soon as Germany can control Poland and effect a juncture with Russia, she will turn and defy the whole world," according to the Times.

THIRD PARTY MEN GETTING TOGETHER

By Telegraph to The Freeman.

Chicago, July 13.—After two days of bickering and negotiating between the major parties now in Chicago the way was cleared here shortly before noon for the birth of a united third party, probably tonight.

A joint convention, embracing the committee of Forty-Eight, the American Labor Party, the Single Tax Party and representatives of the Non-Partisan League and smaller organizations probably will be held tonight at which candidates for president and vice president will be nominated and a platform adopted.

The agreement to meet in joint convention was made with the name of the new party and the platform still in doubt. Those will be settled later.

The instrument through which the amalgamation was effected was found after a morning of discussion during which it was feared the coalition was doomed to failure.

The labor party at its convention in Carmen's Hall finally forced the issue and voted to go ahead and nominate a candidate for president at 8:30 o'clock tonight, regardless of everything.

Then at the Morrison Hotel, where the convention of Forty-Eighters was in progress, H. F. Wilkie of Maryland, chairman of a committee of political procedure, brought in a report stating: "The labor party of the United States and the committee of Forty-Eight shall unite in a new political party."

Put to a vote Wilkie's report was unanimously adopted and a committee was immediately appointed to notify the labor wing of the action and to arrange details.

OVER 500 REAL ESTATE CHANGES HERE THIS YEAR

Biggest Turn-Over in Residential Property in Kingston's History—The Average in Past Years Was Only About Fifty Real Estate Transfers.

According to the records in the city assessor's office in the city hall there have been 520 real estate changes in Kingston so far this year. This is the biggest turn-over in real estate in the city's history. The greater part of the real estate transfers were residential properties. Last week alone 22 changes in title were reported to the city assessor.

There has been no intensive campaign of "Own Your Own Home" but the housing condition in Kingston, as well as elsewhere, has become so acute that many families who never had the slightest idea of purchasing a home did so this year. Undoubtedly the same conditions exist throughout the country.

This year has been marked by abnormal wage increases, and men who formerly thought they were doing well if they were paid at the rate of $2.50 to $3 a day, now receive double that amount. In many of the city factories it is no extradionary matter for a skillful worker to average $30 a week in her paynull. In some of the cigar factories there are young men who are said to earn as high as $50 a week if they work the full week.

Conditions being so many families have found not only their earning power doubled, but they have and are receiving each week more money than ever had before in their lives.

When the high wage era in this country was inaugurated it first showed its symptoms in the increased spending power of the larger part of the public. This spending took the form of refurnishing and adding to the home equipment. Pianos and talking machines and other luxuries were also purchased and paid for. All lines of trade felt the impetus of the spending era.

Then from jewlery articles of luxury, clothing etc. naturally the money found an outlet in the purchase of a home.

There is no question but that the boost in rents all over the city and throughout the country led to a "Buy Your Own Home" campaign.

In former years the records of the city assessor show that it was an unusual year when over fifty houses changed hands, but this year will far surpass other years and judging from the fact that the week that just closed showed over twenty changes in real estate it would indicate there has been no perceptible falling off in the purchase of real estate.

The change in the titles of so much real estate is keeping the city assessors office busy marking the changes on the tax books.

The boom in real estate has caused the real estate dealer's smile to far eclipse even the far famed iceman's and coal dealer's smiles.

SOUNDING IN RONDOUT CREEK

The yacht Delafield of the United States engineering department, is berthed in the Rondout creek, while soundings are being taken of the depth of the water at the mouth of the creek for the department. The work of sounding started at the light house and is being continued as far as the gas company dock. These soundings are taken occasionally by the government to see if the mouth of the creek needs dredging. Rivermen say that there is more water now at the mouth of the creek than there has been in some time. It is expected that the work will be completed today or Wednesday.

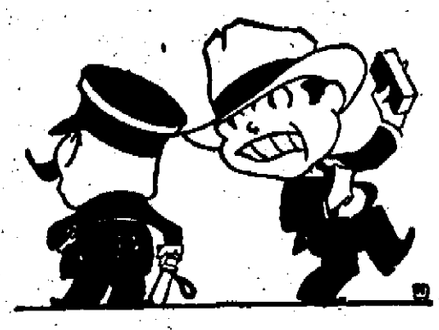
"How I saved a policeman's life"



EVEN THE eggs.
WERE TIRED that morning.
AND THE coffee.
DIDN'T FOOL me one bit.
BUT WHEN after breakfast.
MY CIGARETTE tasted awful.
IT WAS too much.
AND A grouch started.
AND WALKING to work.
I SWORE off smoking.
AND DECIDED to fire
MY OFFICE boy.
BUT JUST before I decided.
TO KILL a policeman.
A MAN passed me.
SMOKING A cigarette.
AND SAY but the smoke.
THAT DRIFTED back.
DID SMELL good.
AND I followed him.
INTO A store.
HE THREW down two dimes.
AND SAID "The same."
AND SO did I.
AND SO I'm still smoking.
AND STILL keep that.
OFFICE BOY and I let that.
HANDSOME POLICEMAN live.
AND I'M going to boost.
THAT MAN I followed.
FOR PRESIDENT or something.
FOR REALLY those cigarettes.

KINGSTON, N. Y., JULY 13, 1920.

JUST THE OPPOSITE

Republicans of Ohio are not at all worried relative to the nomination of Governor Cox as the Democratic candidate for President, but on the contrary they look upon his selection as the surest means of proving that he is not a vote-getter, and that when he faces a united Republican party, as he will this year, he will be beaten by one of the largest Republican majorities ever polled in the state of Ohio. This is the confident belief of the Republicans of that state, and they base their conclusions on figures which show that their deduction is uncontrovertible.

In no year in which Mr. Cox has been a candidate before the people of Ohio has he faced, as he does this year, a united Republican party. In every campaign he has had the advantage of conditions, which, while he was the beneficiary, by no means indicated any particular strength. In other words it was a case of the other fellow losing rather than Cox winning, or of the other fellow's weakness rather than Cox's strength.

In 1912 Mr. Cox was elected Governor of Ohio, but this was at a time when there was a division in the Republican ranks, and he was chosen by a minority vote. In 1914 he was decisvely beaten, while Senator Harding, running the same year, received a plurality of 102,373 votes. Then in 1916, Mr. Cox, running on a ticket with President Wilson, ran 83,000 votes behind and barely nosed through. In 1918, he was re-elected Governor by a very small majority, having the support of a special issue, all of which goes to show that what has been said of Mr Cox as a vote-getter is subject to revision.

In 1920, however, Mr. Cox instead of looking forward to assistance he might get from a divided Republican party faces a solid working organization, every Republican working for party success. This in itself must change the outlook to him, particularly when there is a division in his own party more intense than any since the sound money issue. This is the year that Mr. Cox will run as a Democrat, on the Democratic ticket, and it is a year when the people will pass their opinion on the Democratic party.

The Republicans of Ohio have every reason to feel confident of victory, viewing the comparative records of Senator Harding, the Republican candidate, and Governor Cox the Democratic candidate. The facts are sufficient to prove that Mr. Cox, politically speaking, was a victim of conditions over which he had no control, rather than an outstanding figure because of any constructive achievement. Running this year against a united Republican party will be somewhat different than when he ran with the Republicans split in two. This no one would dispute, and the foregoing facts not only discount the Cox popularity but point definitely to a Republican triumph. As it is there is no reason in the world why Ohio should not feel confident of a Republican victory. Furthermore, the figures instead of indicating that Cox is a vote-getter, prove just the opposite.

The New York ..Saloon League, according to its chief officer, instead of going out of business is in need of a million dollars a year with which to make sure that the army of prohibition enforcement officers perform their duty. If the league must have vast funds in order to watch the officers paid by the government, it is evident that the grand total of costs is going to be incalculable.

The Philadelphia Board of Health has ordered barbers to keep shears, trim their fingernails short, stop the bleeding of cut patrons in "a recognized antiseptic manner," apply talcum with the end of a towel and not make use of a public powder puff. Considering the prices they now demand, barbers ought to be able to afford all this and then some.

One Willie McCue, unjustly labeled the "toughest kid" of Hell's kitchen by the Russell Sage Foundation, has been awarded a verdict of $1,500 for the libel. Instead of being a bad example himself, Willie has managed to put into that role the careless or hasty social surveyors who pitched upon him by mistake.

In the evening Mr. Wright commenced a series of sermons on studies of the "Prodigal Son," and impressed upon his hearers a wonderful truth from the theme. "A Contrast in Beginnings." Our pastor is very much in earnest and a feast of good things is brought before us every Sunday. Thursday evening at the mid-week service the theme is "Unfulfilled Impulse." NOTABLES AT CO. CONVENTION

Senator Wadsworth, Congressman Ward And Senator Tully Expected To Attend Republican Gathering Here on August 2.

At a meeting of the Republican county committee on Monday County Chairman Philip Elting called the meeting to order and the roll was called by Secretary John W. Eckert, who also read the call of the state committee for a state convention and the call for the meeting of the county committee.

County Chairman Elting explained that the committee could select the delegates or could call a convention which would select the delegates, in which case primaries would be held first to elect delegates to the county convention.

Mr. Elting said that the election this fall was of the utmost importance because a full state ticket was to be selected, and also two associate judges of the court of appeals, a United States senator, a member of congress, a state senator, surrogate, sheriff, coroner, assemblyman and county superintendent of the poor. Mr. Elting said he was pleased to see such a large attendance at this busy season of the year, which indicated the interest which the people were taking and which was very helpful.

Supervisor Chester Young of Wawarsing offered a resolution that the delegates and alternates to the state convention be chosen by the committee, which was carried.

Supervisor John D. Fratsher of Saugerties offered a resolution that the following delegates and alternates be chosen by the committee:

Delegates—Philip Elting, Kingston; Martin Cantine, Saugerties; Dr. Mary Gage-Day, Kingston; Senator Charles W. Walton, Kingston; Philip Schantz, Highland; Assemblyman Simon B. Van Wagenen, Esopus; Mrs. Jane D. Young, Napanoch; Hon. C. Meech Woolsey, Milton; Hon. Abram P LeFevre, New Paltz; Supervisor John H. Saxe, West Hurley; Hon. Frederick Stephan, Jr., Kingston; County Attorney John W. Eckert, Kingston; Supervisor James H. Heaton, Clintondale.

Alternates—Hon. Andrew J. Cook, Kingston; John A. Snyder, Saugerties; Miss Grace Van B. Roberts, Highland; Mrs Lanetta E. DuBois, New Paltz; Mrs. Fannie Elwyn, Woodstock; William Reynolds, Woodstock; W. Kelly Shook, Wawarsing; Hon. Joel Brink, Ulster; Fred. Sahloff, Kingston; William D. Brinnier, Jr., Kingston; William R. Harrison, Kingston; George Garrison, Rochester; Henry L. Winchell, Marbletown.

The resolution was adopted.

Secured Kingston Opera House.

Chairman Elting said that in connection with the calling of the county convention, he could get the Kingston Opera House for a meeting place for Monday, August 2, and he felt it was well to hold the county convention after the state convention.

Former County Treasurer John A. Snyder of Saugerties offered a resolution that the county convention be held at the Kingston Opera House on Monday, August 2, at 11 a. m., to recommend candidates for nomination for congressman, state senator, surrogate, sheriff, coroner, assemblyman, and superintendent of the poor, and that caucuses be held throughout the county on Saturday evening, July 24, at eight o'clock.

Former Sheriff Edgar T. Shultis of this city inquired whether it was necessary to hold the caucuses on Saturday night.

Chairman Elting said it made no difference what night the caucuses were held.

Superintendent of the Poor William S. Hartshorn said Saturday night was best for his town.

Chairman Elting said Saturday night was most satisfactory to the country districts.

Secretary Eckert said it was a considerable task to prepare and issue the calls, and he had proceeded on the assumption that Saturday night would be chosen. If another night was chosen, the notices would have to be printed over again.

Supervisor E. Otis Van Aken of this city said Saturday night was a bad night in the city; that it was a hard job to get people to come out to the caucuses anyway; that many people wanted to know what they were to attend the caucuses for, anyway, and Saturday night was the worst night of the week.

Chairman Elting said Saturday night seemed the best night for all country districts.

The resolution was adopted.

Will Get Badges.

Secretary Eckert explained that as soon as the committeemen finished dinner, they would be supplied with envelopes containing the various notices to be issued in connection with the caucuses, etc., and three badges for each district which it was hoped the delegates would wear.

Chairman Elting said he expected Senator Wadsworth, Congressman Ward and Senator Tully would attend the convention and make addresses. He hoped there would be a large attendance.

The committee then adjourned to dine at The Stuyvesant.

TWENTY AND TEN YEARS AGO.

500 FARMERETTES AT MARLBOROUGH

Detachment of Woman's Land Army Great Aid in Gathering Small Fruit Crop—Not All Work and No Play.

Five hundred young women of New York city, a detachment of the Woman's Land Army, have invaded Marlborough and are rendering valuable assistance to the fruit growers of that section in the harvesting of the abundant crop of small fruit.

The "farmerettes" were brought to Marlborough through the efforts of the Hudson Valley Cooperative Labor Association, and the headquarters of the national commission in New York city.

The young women enlisted for service for periods varying from two weeks to the entire duration of the season. They are distributed throughout the town in groups ranging in size from half a dozen to 20, the largest of which is encamped on the Wilbur Haviland farm near Marlborough.

Although the "farmerettes" perform their daily tasks in a most efficient manner they daily existence is not all work, being well seasoned with play and recreation.

Despite the fact that the young women come to the rural districts for the prime object of performing valuable service to the fruit growers in saving the large and valuable crops from waste they do not forget that this life is not made up wholly of work. When their daily tasks are completed the young women give themselves over without reserve to a full enjoyment of their surroundings and environments in the sections nestled among the hills of Ulster county.

When the day's labors are completed it is but a matter of minutes for many of these young women to discard their overalls and broad-brimmed hats and don the most artistic bathing suits in preparation for the transition from maidens of toil to fresh water mermaids.

The Hudson river is a popular place for the aquatic amusement for those who are stationed near enough to its banks to make it available for bathing purposes. Those who are located at too great distance from the river banks to make the use of its waters possible, the ponds and streams lying further inland are eagerly sought.

The supper hour finds the young berry pickers refreshed from their dip and ready to do ample justice to the substantial fare set before them. The manner in which the energetic workers attack all their meals proves that the fresh country air is one of the best of appetizers.

As the evening shadows fall and envelop the countryside the motorist driving through that section is given the impression that by some mysterious agency he had been transported to the Hawaiian Islands as the strains of the ukelele and other musical instruments are wafted to his ears from the numerous camps where the workers are relaxing after the day's labors.

Music forms an important part of the daily life of these healthy and happy girls. In many of the camps vocal music is mingled in an artistic manner with the strains of the various instruments.

As night spreads its sable mantle over the countryside the workers, one by one, vanish from view to seek the rest which has been well earned and which fits them to attack their tasks on the morrow with redoubled energy.

FOUND DEAD IN ROAD.

Broker's Wife and Chauffeur Shot Near Stonington.

By Telegraph to The Freeman.

New London, Conn., July 13.—The tragic death by shooting of Mrs. Arthur De Cordova, wife of a New York broker, and her chauffeur Bernard Geissler on a lonely motor road near Stonington today, has shocked the residents of the fashionable summer colony of New Yorkers here and has given the authorities one of the most baffling crimes they have had to solve in years.

Their bodies sprawled into the road. Mrs. De Cordova and the chauffeur were found by James F. Brown, a farmer of North Stonington. Mrs. De Cordova was dead, Geissler was alive but unconscious. He was rushed to a hospital but died early this morning without regaining consciousness.

Between the bodies when found lay an army pistol. Mrs. De Cordova had been shot through the heart and apparently had died instantly. Geissler's body was hanging across a fence with bullet wounds in his head.

Mrs. De Cordova and Geissler are said to have left Griswold, near here, yesterday afternoon in a three passenger sports model car. The De Cordova's came to Griswold on July 1. Arthur De Cordova, the husband, returned to New York yesterday.

Late last evening Brown, the farmer, heard several shots and upon investigation found the bodies of Mrs. De Cordova and the chauffeur.

Geissler, who was 31 years old and had a wife in New York, had been in the employ of the De Cordovas for five years.

Relatives and friends of the De Cordova family could shed no light on the tragedy or ascribe any motive for it. Prosecutor Hewett of New London county said today that he is not satisfied with the theory that Geissler shot Mrs. De Cordova and then turned his weapon upon himself and declared he will conduct a vigorous investigation.

A purse containing $36 in money which Mrs. De Cordova had with her was untouched.

Saving the Tin.

After trying many other processes of recovering tin from old cans there is now, according to La Nature (Paris), a return to the old-fashioned method of boiling the scraps (well cleaned) in a solution containing an excess of free alkali and saltpeter. The tin is recovered as crystals of stannate of soda and the alkali and saltpeter can be used over and over again.

BRITISH LABOR ON IRISH QUESTION

By Telegraph to The Freeman.

London, July 13.—A special trades union congress, representing practically all of the organized workers of the United Kingdom, assembled here today to define labor's attitude towards the strike of Irish railwaymen. It was reported that that the conference would extend its original program for the meeting and discuss the allies' attitude toward the Russo-Polish war also.

The Irish railway employes went on strike rather than handle munitions consigned to British troops. The government failed to reach an agreement with the Irish strikers who appealed to the organized workers of England to support them.

Leaders of the extremist faction of the coal miners expressed themselves in favor of direct and emphatic action. They proposed an agreement calling for a general strike until the government withdraws its troops from Ireland.

It was pointed out that if the resolution was adopted by congress it would be necessary for the various unions to ballot upon it before any decisive action could be taken towards putting it in effect.

Leaders of the moderates predicted that any such resolution would be voted down. They declared that the six million organized workers would undoubtedly veto a general strike which was designed for political ends.

"I am hopeful that no crisis will arise," declared J. H. Thomas, head of the railwaymen's union before the meeting opened.

A big-scale road test on 3,200 tubes

How Firestone puts the miles in — and then proves it—not at YOUR expense.

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly—improvements and developments are arrived at.

By close watching of a large number of tubes in service—not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test—in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

AUTO ACCIDENT ON NORTH FRONT ST.

Two automobiles collided on North Front street at the head of Wall street a few minutes after noon today, resulting in a dished wheel of one car and slight damages to the other. A Maxwell car owned by Mr and Mrs William S. Miller of 17 Fifth street, Weehawken, N. J., was traveling along North Front street toward Clinton avenue, and had reached Wall street when an Everett runabout owned by H Berridge of Passaic N J., swung into North Front street from Wall street, turning toward Washington avenue

According to the Millers' story, the rear wheel of Berridge's car struck their right forward wheel and caused the accident The Miller's car swerved toward the entrance of the Rose Gorman-Rose store, where a number of people were waiting to board a Kingston City trolley car, but just before reaching the curb the left forward wheel of the Miller car collapsed The Millers, who were the only occupants, were given a severe jolt but were uninjured Berridge, who was driving his own car, stopped his car about a hundred feet away

Patrolman James Martin took the names and addresses of the owners of both cars, but finding that there had not been any violation of any ordinance advised the parties to settle their differences outside of court if possible

The Millers had been spending the summer at Andes, Delaware county and were on their way home Berridge was accompanied by two young men named W Wessener and J Push, both of Passaic The accident drew a large crowd The Millers and Berridge both claimed they were traveling at about ten miles an hour

Portage Tires Are Safe Guides to Big Mileage!

ONE hundred and fifty years ago, the scanty population of America was clustered along the Atlantic seaboard. The land of golden promise—the west and north—constantly lured intrepid pioneers to venture into those unknown wildernesses at the peril of their lives. The surest and safest method of travelling was by canoe. But when the end of the lake or river was reached, canoes and trappings had to be carried upon the backs and shoulders. Then the hardships and perils of the traveller began. Those primitive paths between the waterways were called the *Portage*. Upon those trails the grit and stamina of our forefathers were tested to the utmost. Only the strongest survived.

In journeying from New York to Canada, their way led through a chain of rivers and lakes linked together by small *Portages*. Many of these latter are unknown in history but their importance can be measured by the fame of the forts that were built upon them. How much history have the names of Fort Crown Point, Fort Ticonderoga, Fort William Henry, Fort Schuyler and Fort Nicholson wrapped within them! From Albany to Montreal these *Portages* small and great, were the key positions for which hostile forces of Indians, French, English and Colonial troops fought and battled. The history of the early years of our country cannot be told without mention being made of these *Portages*.

TEN years ago we built the first Portage Tires. They were so named because we designed them to be rugged, strong-muscled and faithful "carriers." They were built to give generous mileage and positive service. And they lived up to their heroic name.

Today Portage Tires are better than ever. Every advance in the art of tire building has been utilized by Portage engineers and chemists. Time and money have not been considered when their expenditure meant increasing the mileage and endurance qualities of the tires. The 1920 Portage Tire proves the soundness of the investment.

The motoring public has shown its appreciation without stint. As a consequence the demand for Portage Fabric Tires and Portage Cord Tires has grown almost faster than our capacity for building them.

ABANDONMENT OF INVALID WIFE

That Peter Brower has contributed nothing toward the support of his wife, although receiving $50 a week as an employe of the Central New England freight yard in Maybrook until the recent strike and now earning $30 a week at his trade as a knifemaker in Walden, was asserted by Earl E. Houghtaling, counsel for the wife in an action for a separation in Justice Seeger's court in Newburgh Saturday.

The wife, who before her marriage was Annette B. Cole of Modena, Ulster county, alleges abandonment. She was married to Brower in Walden, March 12, 1911, and during the last two or three years has been an invalid, having undergone three operations, the last one for an abscess of the kidney in August 1919. She was taken by her husband to her father's home in Modena. Mr. Houghtaling said, Brower borrowing from her sister and never yet repaying it. The wife is there yet, moved about in a wheeled chair, and constantly attended by her sister. She is dependent on her brother for support.

According to Mr. Houghtaling, Brower has practically cast her off, after using an inheritance of $250 from her mother with which to start a business in Walden in which he failed.

There was no appearance on the part of the husband in court and Justice Seeger granted the plaintiff $75 counsel fee and $12 a week alimony. If the case comes to trial the court will probably go to Modena to take the wife's testimony, as she is in such a condition that she cannot be moved.

AIR ATTACKS ON TURKS.

Allies Make Nightly Raids in Northern Anatolia.

By Telegraph to The Freeman.

Constantinople, July 12 (via London, July 13.)—The allied troops in northern Anatolia have opened an "air offensive" against the Turkish Nationalists. Almost every night the residents of Constantinople are treated to thrilling and spectacular sights of bombing attacks by aircraft against the hillside strongholds of the Turkish raiding bands to the south and southwest of the city. Occasionally the allied warcraft in the Sea of Marmora or the Bosphorus cut loose with a bombardment of the Nationalist positions when they are within gun range.

Thirty Turkish bandits, captured near Beices, were court martialed and shot.

Beices, on the Asiatic shore of the Bosphorus, was occupied by Turkish forces on July 5, but it is understood that they later withdrew as a result of the recent Greek advance.

There was great rejoicing among the Georgians over the signing of a truce with Moscow, which gave the important city of Batum to the new state of Georgia, said a Batum dispatch today. Batum is the center of the great petroleum industry in the Caucasus.

BANDITS STOLE WEEHAWKEN CAR

Howard Horton, One of Trio Who Held Up Sheldon Teetsell, Identified as One of Party Who Held Up New Jersey Man a Few Days Ago.

Thomas Junior, Alfred Guido and Howard Horton, the three highwaymen who held up Sheldon Teetsell on the Saugerties-Catskill road near Cementon, in Ulster county, Sunday evening, taking his automobile, robbed him of near $100, and who were later arrested at Rhinebeck and brought to the Ulster county jail, were taken before Police Justice Chidester Monday afternoon for arraignment. An adjournment was taken until Wednesday afternoon.

They were charged by District Attorney Traver with robbery in the first degree, and they were told their legal rights. An examination was requested and Horton stated they would get a lawyer in New Jersey and would telephone to a relative to have him send him up.

Monday evening at the jail Howard Horton, one of the bandits, was identified by a son of Theodore Gleidt, master of laws, of 114 Hauxhurst avenue, Weehawken, N. J., as one of a band of highwaymen who held him up in his automobile at the point of a revolver, near Weehawken, a few days ago, and stole the car. The highwaymen evidently drove the car to Catskill or vicinity, as on Sunday, while Horton, Guido and Junior and two others were in the auto it broke down near Cementon, where Guido had an uncle living at one time who, he says, kept a hotel. William A. Peter, president of the Peter Brewing Company of New Jersey, who was on a honeymoon trip through the Catskills, came across the automobile, and being a neighbor of Mr. Gleidt, he recognized the abandoned automobile. The party stopped and a young lady in the party said to be Mr. Gleidt's daughter, said "that's my father's car that was stolen last week. If you don't believe it lift up the cushion and you'll see his name burned in the seat." Investigation proved she was correct. The party then went to Catskill and notified Chief of Police Ryan, who got on the running board of their auto and they started for where the abandoned auto was. A truck from Post's garage had gone to where the adandoned car was to repair it. When the men saw the Peters car with Chief Ryan coming they jumped on the truck and ran it down the road about three miles and abandoned it. They went further down the road where they stopped until they held up Teetsell. It is said that there were five men on the stolen Sedan before it was abandoned and that two must have taken a West Shore train for New York about 6 o'clock, leaving the bandits behind. Information having reached the ears of Policeman Martin of this city of the occurrence about the abandoned stolen auto from Weehawken he told the sheriff's office about it and word was telephoned to Catskill about the three men under arrest here and young Mr. Gleidt, who was there, came to Kingston and identified Horton at the jail as one of the men who held him up at the point of a revolver and stole the Sedan car.

Horton on Monday afternoon told Deputy Sheriff Jocelyn that Chief of Police Thomas Hannon of Weehawken, N. J., was his uncle and that he was related to some of the Nolans of this city and vicinity. So far the bandits are credited with stealing three autos, that of Mr. Gleidt, the Post wrecking truck and the Van Buskirk Ford which Teetsell was driving.

"THE GROCERY CLERK."

The famous old bull in the china shop becomes as tame as a poodle dog on parade and Feck's Bad Boy seems like a curly-haired mother's darling when compared to Larry in his good, old-fashioned, unsuspecting country store. Here is a comedy that will give you hiccoughs with your Ha, Ha's. One laugh walks right on the heels of the other. A bit of fly paper makes the cat do the shimmy; soot makes black men out of white; flour makes white men out of black; the cheese walks off the counter and goes out for an airing; a mouse fills up on some sort of "hootch" and chases the cat out of the store and General Uproar takes command of the situation.

By Telegraph to The Freeman.

New York, July 13.—The stock market showed an improved tone at the opening today with a majority of the issues making advances of from fractions to over 2 points. The steel issues, which were in supply last night, showed good gains. Baldwin Locomotive rose 1½ to 121¼; Steel Common ⅝ to 93⅛; Vanadium 1¼ to 86½ and Crucible 1 to 153½. Republic Steel dropped 1 point to 93 but quickly recovered to 94. Reading was most active of the railway shares advancing 1⅝ to 91¾. Mexican Petroleum rose ½ to 189; Pan-American Petroleum 1 to 103⅝ and Royal Dutch ½ to 114½. There was little doing in the motor group.

The stock market showed an irregular tone throughout the forenoon, frequent rallies and recessions occurring. The railroad issues were strong and the oil issues were in demand.

BATTLE ON DIAMOND

Tonight Between Herbert Mirrors and Zuzu Nine.

If weather conditions are good a baseball game will be played this evening on Athletic Field that will not only be for "blood" because of rivalry between the Herbert Mirrors and the Zuzus, the nines that are to play, but because there is a side bet of $50.

The teams have met before and the Mirrors have had a shade the best of it, and the rivalry has been intense, the Zuzus being of the opinion that they can defeat the Mirrors when it comes to a decisive battle. Bad weather and arguments so far have prevented the finish contest but this evening has been definitely fixed for the big event.

Glaser, who is a semi-professional, will be the umpire and allow no violating of the rules of the game and will make the contestants play ball. Bob McAndrew will do the twirling for the Zuzus and Caunitz, the star box artist of the high school team, will guide the spit-ball and curves for the Herbert Mirrors.

Deafness That Isolates.

Deafness does not necessarily spell stupidity, although a great many people seem to think so. There are any number of clever, intelligent people of good education and broad views who through illness or accident become hard of hearing—or partially deaf. Isolation is the hardest thing a partially deaf person has to contend with, and when one is denied general intercourse with others one is apt to grow selfish and self-centered.
